Response to Amendment

1. The reply filed on March 21, 2007 is not fully responsive to the prior Office Action because of the following matters: extensive amendment was made to claim 1 to better define the claimed invention. It is, however, noted that pages and line numbers as referenced in Applicant's response, to provide support in the specification for the claim amendments, are not found. Specifically, the pages and line numbers referenced in Applicant's response in page 5, first full paragraph and third full paragraph bridging into page 6, do not appear to be congruous to the specification submitted with the Office, so as to provide consonance in teachings. As an example, Applicant's response states that Example 4 is on page 38; whereas Example 4 in the specification submitted is not in page 38, but is instead in page 39. If the specification has been amended and inadvertently not submitted, a copy of the amended specification must be submitted to update the Office file, ensuring that no new matter is introduced into the specification. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
